PERSONAL SUMMARY

Dedicated and highly motivated Computer Science undergraduate at Aberystwyth University with a true passion for technology. Solid foundation built on a 14 month IT Internship with GE (General Electric) resulting in competence in both Technical and Non-Technical Environments. Flexible self starter accustomed to working individually and within a team. Proven ability to adapt and learn new skills by independently learning Apple iOS Development from scratch, then designing, releasing and maintaining two Apps on the App Store. Seeking a graduate role in the Technology Industry.

COMPUTER SKILLS

Languages: Objective-C , Java , C++ , C , Ruby (Rails) , HTML , SQL , \LaTeX
Platforms: Mac, Linux, Windows, FREENAS, VMware ESXi
Applications/CMS: Service-Now, SAP Business Objects, Apache, LAMP, OSX Server
Cloud Services: Digital Ocean VPS, Amazon Web Services (EC2)
Service Management: ITIL v3 Foundation Certification

WORK EXPERIENCE

JUL 2012-AUGUST 2013	<p>IT Intern at GENERAL ELECTRIC (GE), Manchester <i>End User Services + iOS Development (12 Months + 2 Month Extension)</i> Produced rich reports and metrics for customers and stakeholders using Business Objects and Service-Now. Developed internal mobile applications for iOS including a PoC mobile implementation of the GE IT Helpdesk using custom Service-Now API's. Lead a technical project to create and develop a BCP/DR Solution for GE Corporate, later asked to propose a solution across all internal businesses. Worked extensively with External IT Services Provider to identify, develop, deploy and manage a new process for IT Asset Management across the UK and Ireland.</p>
OCT 2006-SEPT 2010	<p>Customer Services at SAINSBURYS PLC, Calne (Wiltshire) Customer Services Supervisor responsible for Fourteen Tills during my shift. Ensuring the department was safe and legal, dealing with customer complaints and ensuring high standards. Also worked on Customer Service Desk and Bakery.</p>

INTERESTS AND ACTIVITIES

- Technology, I am passionate for all things Tech, I particularly enjoy building Computers from scratch and managing a Home Server.
- Github (<http://github.com/jfield44>), Tutorials and Open Source Components including a wrapper for the Open Weather Map API ([JFOpenWeatherMapManager](#)). This wrapper was also given the 'Control of the Week' award by CocoaControls, a top iOS Open Source Control community.
- Football both watching and playing. Manchester United and England.
- Coastal Walks and Conservation (University Coastal Care Society) Bi Weekly Beach Litter Pick.
- Military History - I am interested in World War 2 History and hope to visit battlefields across Europe in the future.
